INTRODUCTION:

This report presents data on the performance of the Service Sector Industries within the Manitoba economy for the years 1981 - 1987. It is designed to show the relative importance and performance levels of individual industries within the Service Sector specifically, and the Manitoba economy as a whole.

The Service Sector data is presented on an industry basis with the main areas of concentration being:

(1) Gross Domestic Product at Factor Cost
(2) Labour Income
(3) Investment (Gross, Net and Real)
(4) Employment
(5) Number of Establishments

In order to enhance the presentation format, the Service Sector tables have been divided into two major sub-components: (1) Commercial Service Sector and; (2) Non-Commercial Service Sector.

Data for this report is derived from the Manitoba Bureau of Statistics' Economic Accounts, Statistics Canada Labour Force Survey, and Statistics Canada Business Register. The report includes Manitoba Bureau of Statistics estimates of confidential data.

For further information, please contact Roy Ellis at MBS (204-945-2994).

DATA HIGHLIGHTS:

Over the period 1981 to 1987, Service Sector Industries within the Manitoba economy steadily increased their relative share in all the major areas of the economy. The Service Sector's share of Gross Domestic Product increased 4.4% from 67.7% in 1981 to 72.1% in 1987. Labour income from 71.5% of total in 1981 to 73.4% in 1987. Employment has risen 3.5% to 72.9% of total in 1987 from 69.4% in 1981. Gross Investment showed an 11.0% increase over 1981 while Net Investment was up 18.4% in 1987 over 1981.

Within the Service Sector, the Commercial Services sub-group declined relative to the Non-Commercial industry sub-group. The overall decline in Gross Domestic Product was very slight. In 1981, Commercial Services accounted for 71.9% of the total Service Sector G.D.P. as opposed to 71.8% in 1987. For the Labour Income component, the decline was 2.6% from 62.9% of Total in 1981 to 60.3% in 1987. The decline in Employment was 1.2% falling to 63.2% of total in 1987 from 64.4% in 1981. Investment showed a small increase of 2.0% in 1987 ranging from 79.1% in 1981 to 81.1% of total in 1987.

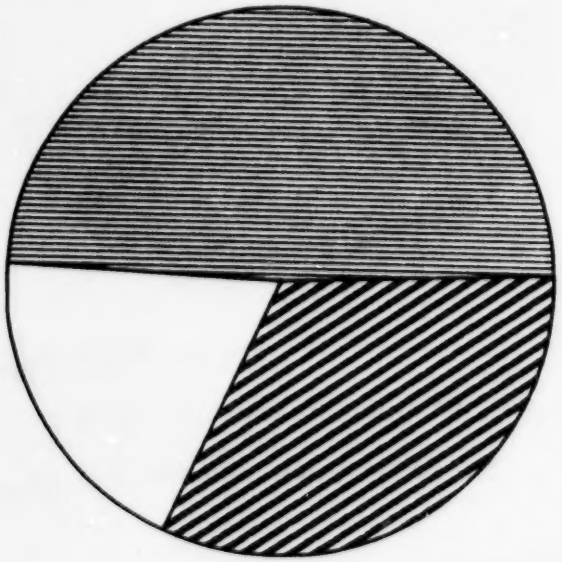
Within the Commercial Services sub-sector, only Finance and Other Commercial Services showed advances. Finance increased its G.D.P.share 4.4% since 1981. Other Commercial Services' share of Labour Income increased 2.0% moving from 12.6% of total Service Sector in 1981 to 14.6% in 1987. In the area of Investment, Finance again had the highest gains increasing 15.8% from 1981 with housing being the main contributor in this area. Investment in housing alone increased 13.6%.

The change in Gross Domestic Product for Non-Commercial Services was minimal, moving from 28.1% of total in 1981 to 28.2% in 1987. The sub-groups of Education, Federal and Local Government had very slight declines in G.D.P., whereas Hospital & Welfare and Provincial Government increased marginally. Other Institutions remained stationary. The Non-Commercial Service Sector's share of Labour Income increased 2.6% rising to 39.7% of total in 1987 from 37.1% in 1981. Investment fell 2.0% to 18.9% in 1987.

The following charts highlight the changes in the economic performance and contribution of the Service Sector and its two major components.

CHART 1
Manitoba Service Industries
Gross Domestic Product as a Percent of Total

Commercial Services 48.6%
Non-Commercial Services 19.1%
Other 32.3%



1981

Commercial Services 51.8%
Non-Commercial Services 20.3%
Other 27.9%
